

D. Ray Wilhite, MS, PhD
Selected Publications

Bonnan B, **Wilhite R**, Sandrik J, and Elsey R. Differential limb scaling in the American Alligator (*alligator mississippiensis*) and its implications for archosaur locomotion evolution. *Anatomical Record* 292(3), 2009.

Wilhite R. Morphological variation in the appendicular skeleton of North American Upper Jurassic sauropods. *Thunder Lizards*. Indiana University Press, pp. 268-301, 2005.

Wilhite R. Scanning and digitizing fossil and extant skeletal elements for three-dimensional applications. *Paleontologia Electronica*, Volume 5, Issue 2, 2003.

Wilhite R. The use of three-dimensional digitized elements to examine forelimb morphology and articulation in North American Jurassic sauropods. *Journal of Vertebrate Paleontology* 22(3):119A, 2002.

Wilhite R. An alternative method for the three-dimensional visualization of large vertebrate fossils. *Journal of Vertebrate Paleontology* 21(3):98A, 2001.

Wilhite R, Curtice BD. Ontogenetic variation in sauropod dinosaurs. *Journal of Vertebrate Paleontology* 18(3):86A, 1998.

Curtice BD, **Wilhite R**. A statistical analysis of sauropod limb elements. *Journal of Vertebrate Paleontology* 17(3):41A, 1997.

Curtice BD, **Wilhite R**. A re-evaluation of the Dry Mesa Quarry sauropod fauna with a description of new juvenile sauropod elements. *Geology and Resources of the Paradox Basin. Special Symposium, Utah Geological Association and Four Corners Geological Society, Guidebook 25*, pp. 325-338, 1996.
