

DISTINGUISHED JOY GOODWIN LECTURER
AUBURN UNIVERSITY COLLEGE OF VETERINARY MEDICINE

Dr. John E. Hall

DISTINGUISHED LECTURE

Pathophysiology of Obesity/Metabolic Syndrome-A Growing Challenge to Our Health Care System

February 24, 2015

4:00 PM-Overton Auditorium

RESEARCH SEMINAR

Role of Leptin and CNS Melanocortin System in Obesity Hypertension and Metabolic Regulation

February 25, 2015

11:00 AM-230 Greene Hall

Dr. John E. Hall is the Arthur C. Guyton Professor and Chair of Physiology and Biophysics at the University of Mississippi and is the Southeastern Conference 2014 SEC Professor of the Year. Dr. Hall is the Director of the Mississippi Center for Obesity Research at the University of Mississippi Medical Center and is one of the most recognized teachers and researchers in the areas of cardiovascular and renal physiology, mechanisms of hypertension, obesity and metabolic disorders. His research has been funded by the National Heart, Lung and Blood Institute since 1975. Hall has also been the Director of a National Institute of Health Program Project since 1988. Dr. Hall has authored more than 540 publications and has been cited more than 42,000 times. His Textbook of Medical Physiology is considered the leading medical physiology textbook and is one of 21 books he has written or edited.

Dr. Hall will be visiting on February 24-25, 2015. Individuals and groups who desire to meet with him may contact Dr. Dean Schwartz (4-5406 or schwadd@auburn.edu).
