

INSTRUCTOR BIOS

Dr. Stan Kim
DVM, DACVS

Dr. Stanley Kim is Associate Professor in Small Animal Surgery at the College of Veterinary Medicine, University of Florida. Dr. Kim received his veterinary degree from the University of Sydney in 2003. After 2 years in general small animal practice, he completed an Internship in Small Animal Medicine and Surgery at the Ontario Veterinary College in 2006. Dr. Kim undertook a combined MS / Residency in Small Animal Surgery at the University of Florida, which was completed in 2010. Dr. Kim has since remained at the University of Florida as a faculty member in small animal surgery, with a focus in orthopedics.

Dr. Kim is a Diplomate of the American College of Veterinary Surgeons. He has authored over 50 peer-reviewed publications, and several book chapters. He has been the recipient of numerous teaching and research awards, including the 2017 Zoetis Distinguished Teacher Award. His research interests are in the field of minimally invasive orthopedic surgery, fracture repair, joint replacement and orthopedic biomechanics.

Dr. Kayla Corriveau
DVM, DACVS-SA

Assistant Professor
Department of Clinical Sciences

Dr. Kayla Corriveau is a board-certified surgeon, a Diplomate of the American College of Veterinary Surgeons. Originally from Southern California, she received her DVM from Western University of Health Sciences in Pomona, CA in 2011. She continued her training with rotating and surgical specialty internships at California Veterinary Specialists, the Veterinary Specialty Hospital of San Diego, and the University of Pennsylvania School of Veterinary Medicine. Dr. Corriveau later completed a small animal surgical residency at Texas A&M University. She joined the Auburn University team as an assistant professor of small animal orthopedics in September 2017.
