The Ophthalmology Service provides comprehensive ophthalmic care to canine, feline, equine and exotic species. The service provides a full range of diagnostics, microsurgical techniques and therapeutic options for the treatment of ophthalmic disease.
WHAT WE DO
The Ophthalmology Service treats a variety of eye disorders, including, but not limited to: diseases of the ocular surface (corneal ulcers, dry eye), cataract removal, inflammation of the eye, glaucoma, neoplasia, retinal diseases and eyelid abnormalities.

The Ophthalmology Service also performs OFA Eye Certification Registry exams.

HOW WE DO IT
The Ophthalmology Service has state-of-the-art equipment for use with veterinary patients, including:

- Phacoemulsification
- Electroretinogram (ERG)
- Ocular ultrasounds
- High-resolution ocular ultrasound
- Laser Treatment

WHO WE ARE
The Ophthalmology Service has a board certified ophthalmologist, two ophthalmology residents, a licensed veterinary technician and a technician assistant.

The Bailey Small Animal Teaching Hospital is one of the nation’s leading medical facilities for animal health care while also providing hands-on clinical education to senior-level students enrolled in the College of Veterinary Medicine. The 208,000-square-foot facility is one of the largest and most technologically-advanced teaching and referral hospitals in the country.

The Auburn University Veterinary Teaching Hospital, through the Bailey Small Animal Teaching Hospital, the J. T. Vaughan Large Animal Teaching Hospital and the Auburn University Veterinary Clinic, provides state-of-the-art care for more than 18,000 patients last year.

APPOINTMENTS
Appointments can be made by referral from your primary care veterinarian. At the time of referral they will be asked to provide copies of previous tests and reports. We also accept referrals directly from owners and we can reach out to your primary care veterinarian for background information. All referrals to the Wilford and Kate Bailey Small Animal Teaching Hospital require appointments. For more information on appointments, go online to www.vetmed.auburn.edu.
